THE LPHCA AGM & ROADSHOW

Updated Event Invitation

Following earlier invitations, this version, issued on June 24th, contains updated information on this year's free event, which is probably the most important event the LPHCA has undertaken.

Our Information Zone special guests, including the TfL Taxi and Private Hire Vehicle team, will now be among the main exhibitors, and new guest speakers have been added to the running order. The Information Zone will now be utilised solely for the LPHCA member's AGM at 16:00.

VAT on Fares Consultation

LPHCA Commercial Partner and industry tax expert Gary Jacobs of Eazitax will explain what is in this very important consultation and why all PHV operators and drivers should respond.

USA Perspective

We are delighted to welcome a very special guest from the USA - Matt Daus, President of the International Association of Transportation Regulators ("IATR"). Matt is also one of the top 100 lawyers in the USA, practising at Windels Marx and specialising in taxi and transportation law.

A Viable National Licensing Scheme

Esteemed Industry lawyer and President of the Institute of Licensing (IoL) James Button will set out what we have called the 'Button Plan,' which we feel is a very viable proposal for national standards and licensing. This will make licensing quicker, cheaper, and easier.

Difficulties with Medical Requirements

Tom Blain of D4drivers will give an update on why changes are needed for the medical requirements and how they have already helped drivers get licensed much faster where licensing authorities allow them to operate.

Transport for London (TfL) – New Regulations and Future Plans

After the FREE lunch provided for all attendees, guests and exhibitors, the afternoon session will commence with TfL outlining their new requirements from early July for Taxi and Private Hire Vehicle Operators & Drivers. TfL will also cover future plans and potential consultations.

Women in Our Workplace – An Answer to Driver and Staff Shortages?

The final presentation will be from an expert panel of ladies comprising LPHCA members, Females in the Fleet and Think Pink, all of whom have been increasing the number of women in the industry. They will cover what they have done so far, and what is needed to get even more women into our industry.

Your Opportunity to Ask Questions

Attendees will have the opportunity to ask questions of all the above experts during each session and at their designated stand or within the Info Zone throughout the day.

Industry Licensable Vehicles on Display

Once again, we will have a wide range of licensable vehicles on display, and the vehicle ambassadors will be on hand in the main hall to show you the vehicles and book future test drives.

There will also be a special Vehicle Ambassador Exhibitor Hall, within the main exhibition upstairs, where the manufacturer's representatives can arrange test drive appointments.

Thursday 4th July 2024

Approximate Event Timings

0930	On-site registration OPENS.
1000	Event OPENS - Meet the sponsors, exhibitors and special guests, including operators, drivers, regulators and trade bodies.
